PFLUON 顶级 Marble 系列不粘涂层
NON-STICK COATING The top Marble series non-stick coating

顶级 Marble 系列不粘涂层

The top Marble series non-stick coating

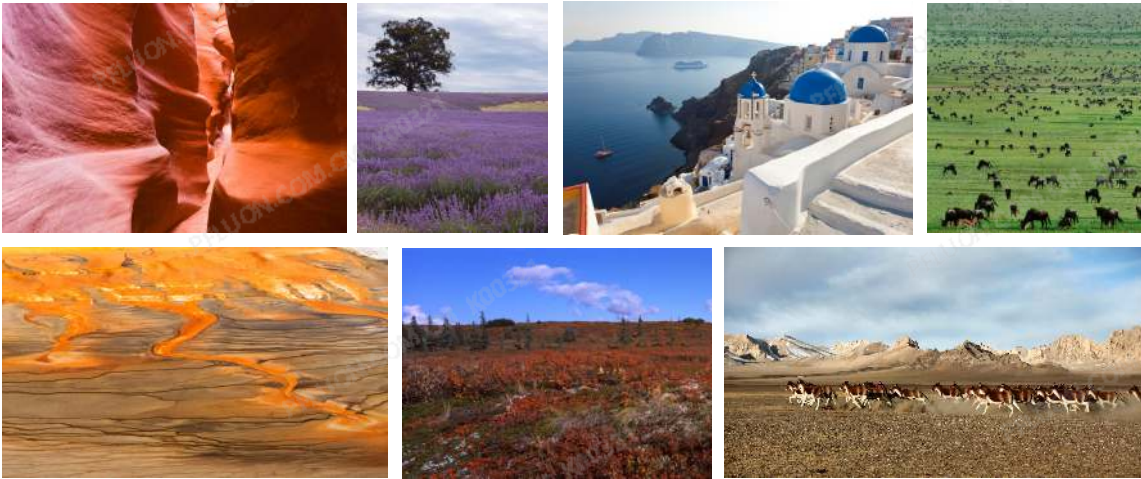

DISCOVER系列不粘涂层，是Marble外观类涂层的顶级产品。我们通过材料技术的革新，赋予了产品更加优异不粘性能和耐用性能。为了给全球消费者带来更加愉悦的烹饪感受，我们广泛汲取艺术灵感，赋予DISCOVER系列不粘涂层更加丰富的色彩和质感。我们提炼全球最具魅力的自然和人文元素，让生活美食更加快乐。

DISCOVER series non-stick coating ranks among the top Marble coating products in appearance. We built the product to be more excellent in non-stick performance and durability through materials and technology innovation. In order to bring consumers around the world more enjoyable cooking experience, we have drew a wide range of artistic inspiration, giving DISCOVER series non-stick coating richer color and texture. We refined the world's most attractive natural and cultural elements for more pleasant living and dinning experience.

为了提升DISCOVER不粘涂层产品的外观表现，我们一直在探索新的色彩方案。流行的色彩是一年一度的过客，但经历自然和时间洗礼的色彩会更具天成之感。我们更广泛的汲取来自自然和人文元素的色彩灵感，赋予DISCOVER更加丰富的色彩。

In order to improve the appearance of DISCOVER non-stick coating products, we have been exploring a new color scheme. Trendy color is just an annual short-lived fashion. The colors, however, after the test of the nature and time, will feature eternal appeal. We draw a wider range of color inspirations from the nature and culture, giving richer colors to the DISCOVER.

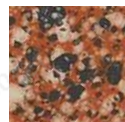

SLOT CANYON

狭缝谷（亚利桑那）
ARIZONA

位于亚利桑那北部的狭缝谷，独特的红色岩层经历千万年的水流侵蚀，塑造了别具一格的峡谷地貌。天光从谷顶洒下，高光的白与深邃的黑在红岩的特殊结构中形成了壮丽的天然景观。

我们一直在找寻一种独特的红，它应该天然而不艳俗，在这里，我们找到了。

Located in the northern Arizona, Slot Canyon with its the unique red rock formations after millions of years of water erosion, creates a unique canyon topography. As daylight sheds from the top of the canyon, the bright white and profound black form the magnificent natural landscape in the special structure of red rock. We have been looking for a unique red which should be natural and not gaudy. With luck, we found it.

AEGEAN SEA

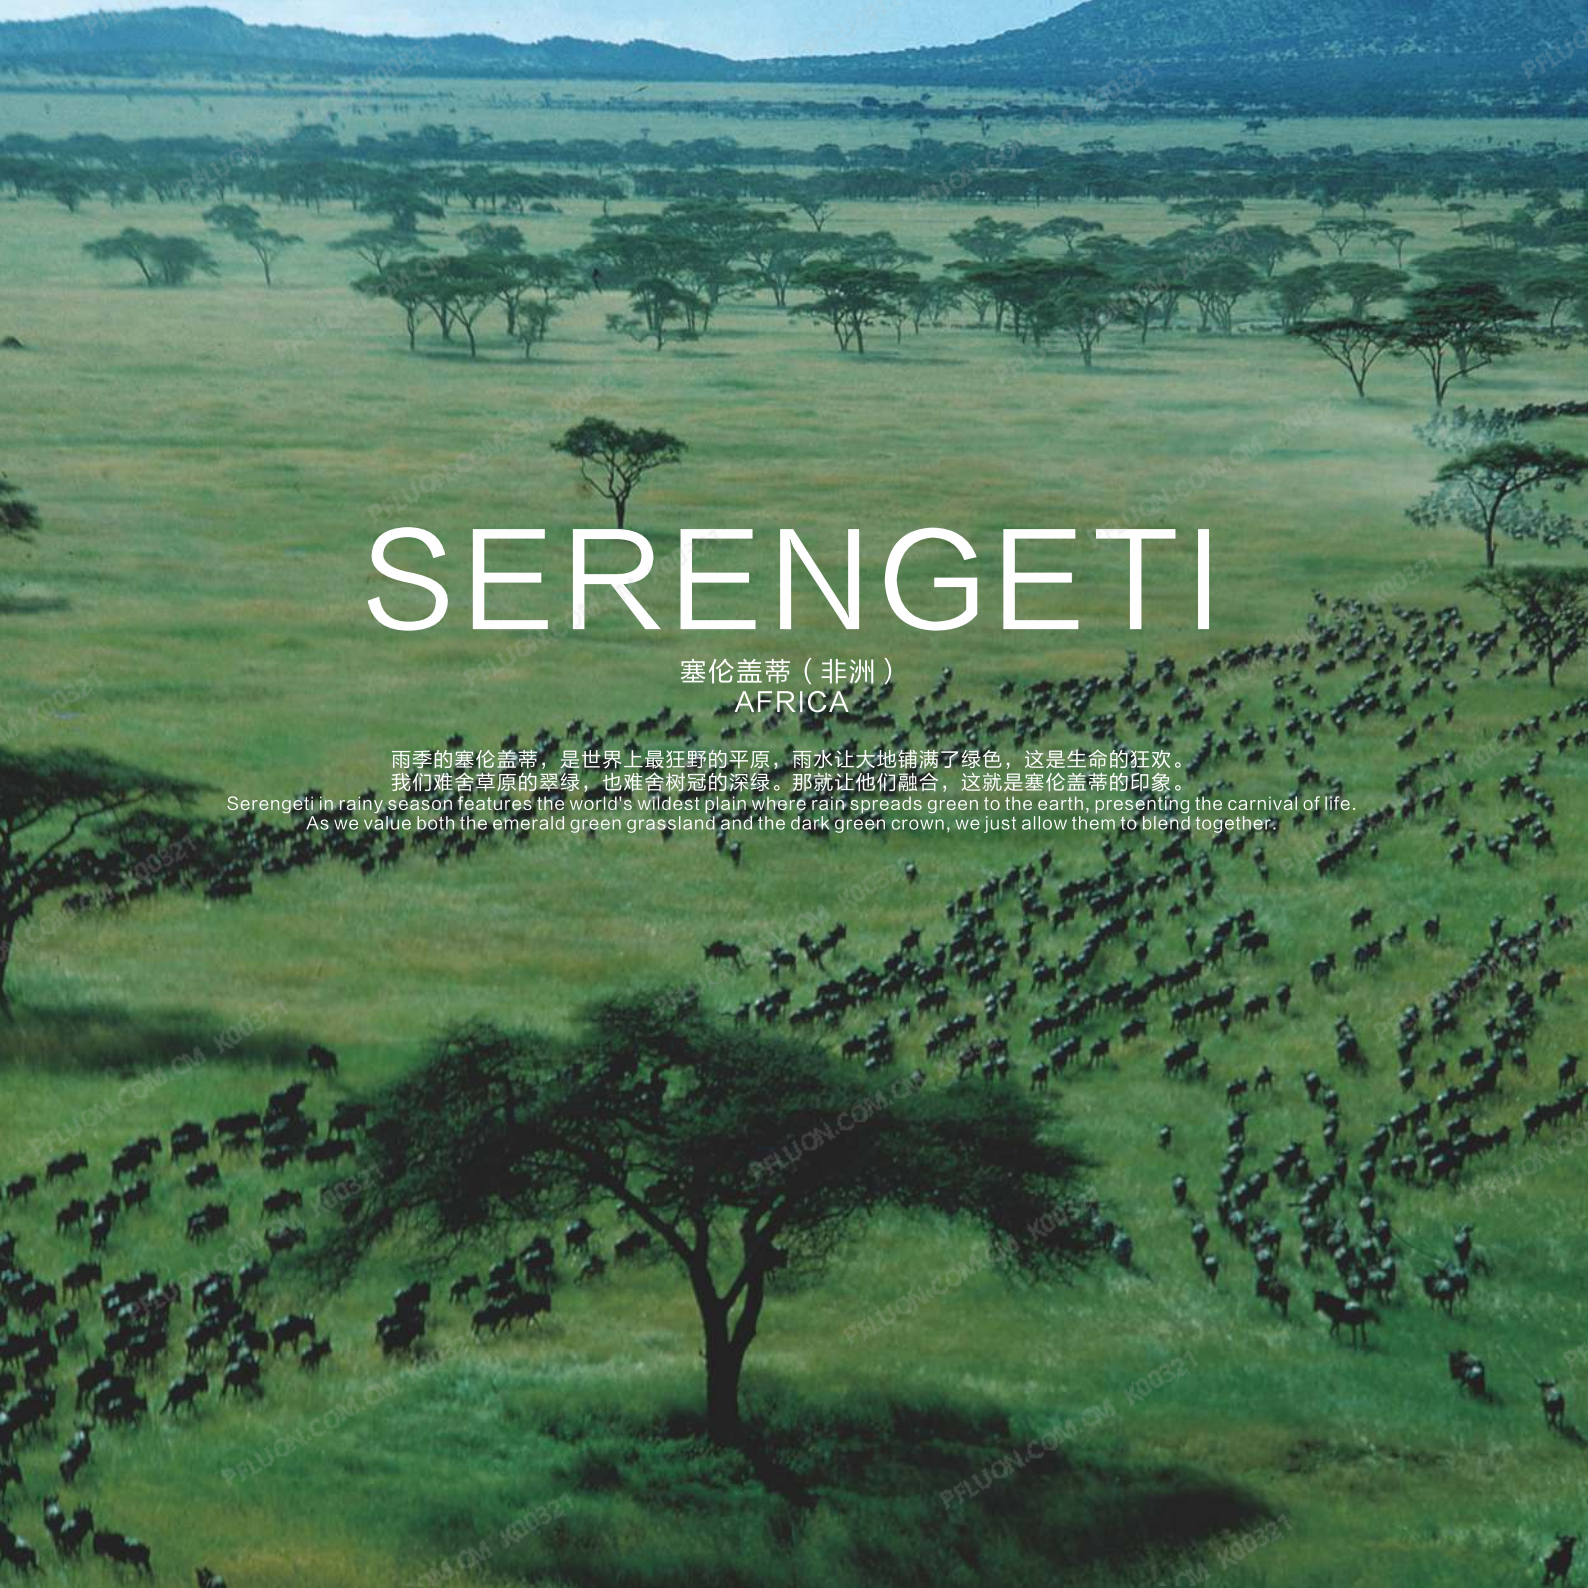

爱琴海
GREEK PENINSULA

著名的爱琴海，蓝色是它的灵魂，海水、天空、海边教堂的屋顶，似乎包含了蓝色的各种形态。
我们选择最深邃的那一种，是浪花下的波涛，是波涛下的涌动。
The famous Aegean Sea takes blue as its soul. Sea water, sky, the seaside church roof, seem to contain a variety of blue. We choose the most profound one, the waves of the sea, the surging of the waves.

SERENGETI

塞伦盖蒂（非洲）
AFRICA

雨季的塞伦盖蒂，是世界上最狂野的平原，雨水让大地铺满了绿色，这是生命的狂欢。
我们难舍草原的翠绿，也难舍树冠的深绿。那就让他们融合，这就是塞伦盖蒂的印象。
Serengeti in rainy season features the world's wildest plain where rain spreads green to the earth, presenting the carnival of life.
As we value both the emerald green grassland and the dark green crown, we just allow them to blend together.

QIANG TANG

羌塘（青藏高原）
The Tibetan Plateau

在著名的青藏高原，这里是著名的无人区，即使在春夏，这里也没有塞伦盖蒂低树草原的那种纷扰。
除了蓝天白云，这就是属于秋天的颜色，虽然低调，但也活力四射。
This is the well-known wildlife haven in the famous Tibetan Plateau. Even in spring and summer, there is no disturbance like that in savanna in Serengeti. In addition to blue sky and white clouds, there's only the color of fall, though low-key, but vibrant.

PROVENCE

普罗旺斯（法国）
FRANCE

紫色薰衣草更具浪漫气质，这也是普罗旺斯的特有的氛围。
这是一种通感的颜色，在视觉之外，可能还会有薰衣草的芳香、紫薯的味道，还有那一丝浪漫情愫。
Purple lavender boasts more romance, which is the unique atmosphere of Provence.
This is a sensational color, in addition to the visual beauty,
there may be the fragrance of lavender, purple potato as well as a trace of romance.

TUNDRA

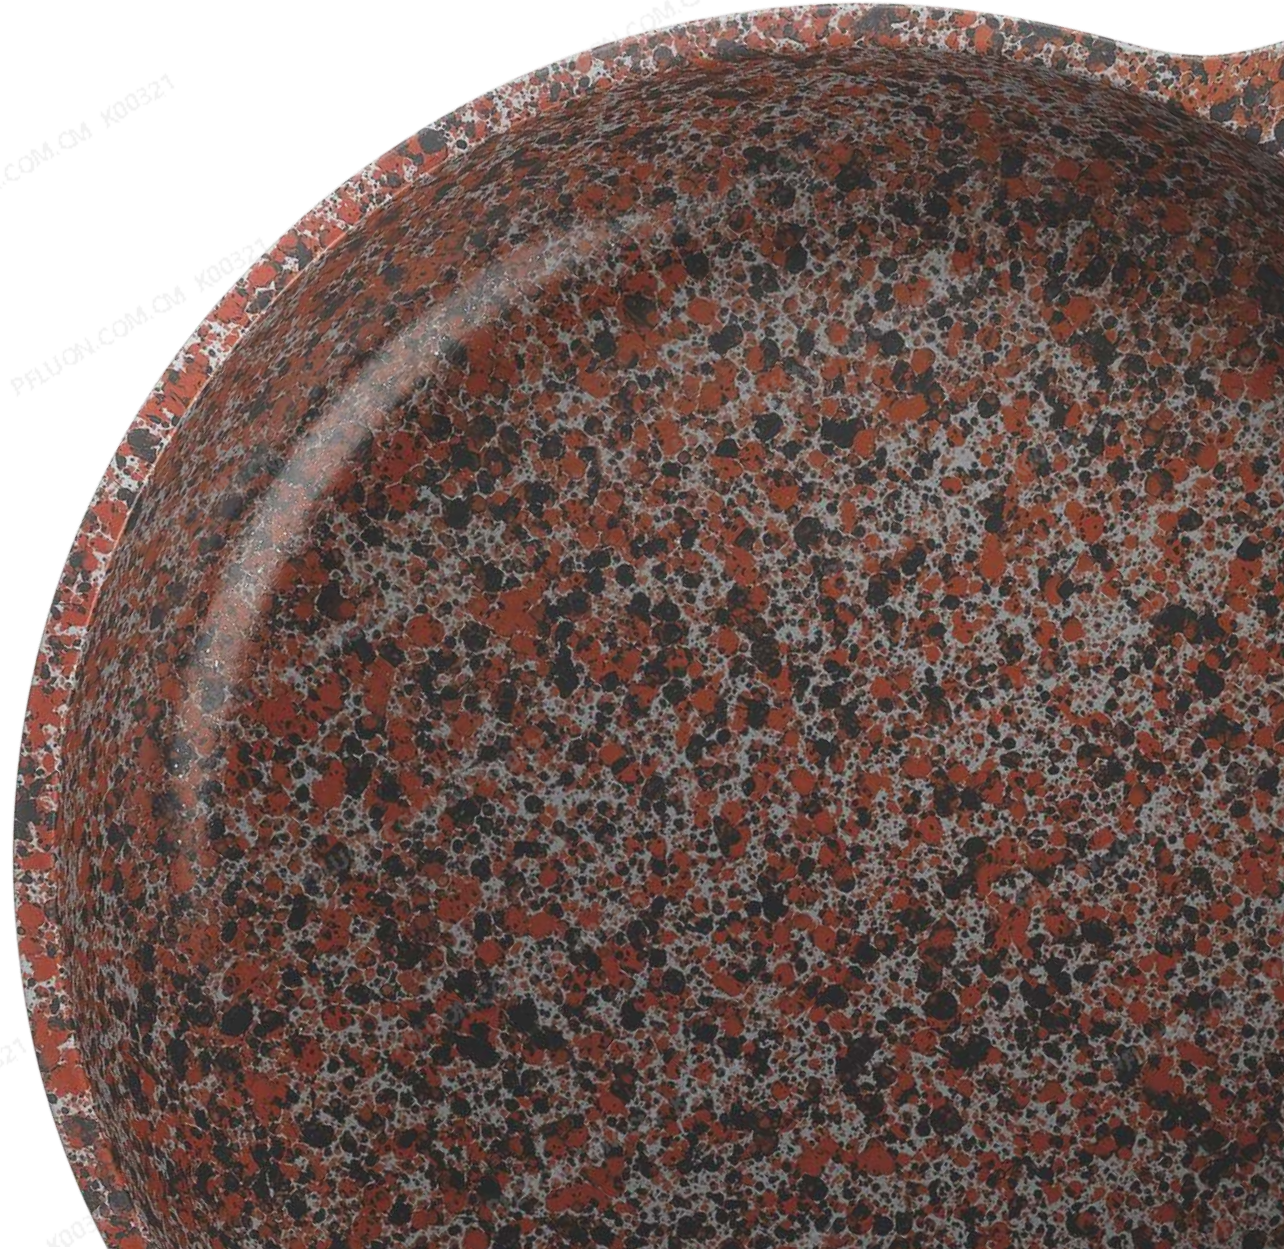

冻原（北极圈）
ARCTIC CIRCLE

再往北就是北极，这里是最严酷的气候带，但也拥有最倔强的生命。
即使没有北极光的缤纷，顽强的苔藓和地衣一样能够组成多彩的世界。
这就是世界上最倔强的颜色。

Heading further north to the North Pole where the most severe climate and the roughest life exists. Even if there is no colorful aurora,
tenacious moss and lichen can compose the same colorful world, which presents the world's most lasting color.
